

□ Chameleon Clothes

Chameleons can change the color of their skin. Sometimes they change color so they are difficult to see and become almost invisible. Sometimes they change color to show that they are angry or happy or looking for a partner.

Of course, humans can't change the color of their skin but we can change our clothes. Dark clothes make a person look more **powerful**. Pink is **romantic**; blue is **calm**. The color of your clothes says a lot about you.

Scientists are working on clothes that can change color when you press a button. They are not ready yet, but the idea is to make pants that can change from white to black or a shirt that can change from white to pink or red. Chameleon clothes!

But clothes that change color are also useful for soldiers. Like the chameleon, soldiers sometimes need to be invisible. Chameleon clothes make the soldiers difficult to see.

So, one day maybe you will be able to change your clothes from powerful to romantic to invisible, at the press of a button.
